WIFI Router Placement Tips:

- Place the 844E router in a high, centralized location
- Pick a place that has good air circulation away from electronics
- Try to avoid placing the 844E router near the following:
  - Cordless phones
  - Microwaves
  - Computer monitors
  - Wireless video cameras
  - Windows
  - Bluetooth devices
  - Reflective surfaces
  - Reinforced concrete
  - Metal partitions, fixtures
  - Sprinklers, and pipes
